

INVITATION

Belgisch Hypertensie Comité
Comité Belge de lutte contre l'Hypertension

Lecturer of the year

March 18th - 22nd 2024

Professor Jan Danser

*Professor of Pharmacology
and head of the Division of Pharmacology.
Department of Internal Medicine at the Erasmus MC.*

Supported by

Professor Jan Danser

Jan Danser studied pharmacy at the University of Amsterdam. In 1985, as a student, he worked at the Mayo Clinic, Rochester, USA, under the guidance of professor Paul Vanhoutte. After obtaining his pharmacist's degree, he joined the Department of Internal Medicine at the Erasmus MC in Rotterdam as a PhD student. He defended his thesis in 1992 (promotor: professor Maarten Schalekamp), and then joined the Department of Pharmacology at the Erasmus MC.

He currently is Professor of Pharmacology and heads the Division of Pharmacology within the Department of Internal Medicine at the Erasmus MC. His research focuses on the pathogenesis and therapy of hypertension, with special emphasis on the renin-angiotensin-aldosterone system, its local function(s) and the synthesis of its components at tissue sites.

He has supervised >60 PhD students. In addition, he teaches pharmacology as well as pharmacotherapy. He has published >550 papers in internationally refereed journals, and he has presented >280 invited lectures worldwide.

He currently is a member of the European Society of Hypertension Scientific Council, being responsible for the involvement of young fellows.

University	Chairman	Topic	Location	Date
ULB	Prof Philippe van de Borne	Onco-hypertensiology: why does HTN occur during treatment with VEGF inhibitors and what can we do about it?	Hôpital Erasme, Department of Cardiology, Chest Meeting, 3 ^d floor, route 401	Monday 18/03/2024, 13h00
UG	Prof Tine De Backer	Preeclampsia: RAAS, endothelin-1 and the angiogenic imbalance	Videoconference room at K12 11 th floor	Monday 18/03/2024, 17h30
KUL	Prof Thomas Vanassche	Angiotensinogen siRNA as a new tool to treat hypertension	UZ Gasthuisberg, IG 2.73	Tuesday 19/03/2024, 12h00
UA	Dr Hilde Heuten	Angiotensinogen siRNA as a new tool to treat hypertension	Universitair Ziekenhuis Antwerpen, Auditorium Gouverneur Kinsbergen, route 12	Tuesday 19/03/2024, 19h00
VUB	Dr Tom Robberechts	Onco-hypertensiology: why does HTN occur during treatment with VEGF inhibitors and what can we do about it?	Universitair Ziekenhuis Brussel (VUB), Auditorium Kiekens	Wednesday 20/03/2024, 12h30
UCL	Prof Alexandre Persu	Angiotensinogen siRNA as a new tool to treat hypertension.	Cliniques Universitaires St-Luc, Salle de réunion, 3 ^{ème} étage	Thursday 21/03/2024, 13h00
UA	Dr Justine Huart and Prof Jean-Marie Krzesinski	Angiotensinogen siRNA as a new tool to treat hypertension	CHU Sart-Tilman, salle Marine (étage -2)	Friday 22/03/2024, 13h00
